The 1973-'74 school year represents the dawn of a new era in the existence of Mount de Sales. It has been a year characterized by change . . . . . as shown by the addition of a modern library, a beautiful green lawn for the athletic field, as well as sixty bright Eighth Grade students . . . Consequently, the school has an air of freshness about it.

We, the staff of the 1973 *Salesian*, have made an attempt to capture the uniqueness of this year by creating a new and distinctive type of yearbook.

ACTIVITIES

DAY BY

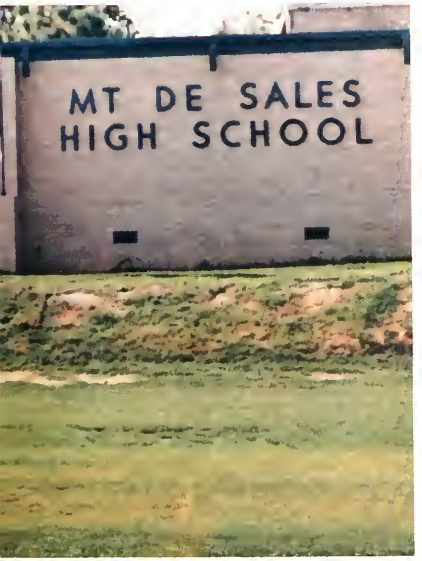
Patty and Jenny display surprising talents.

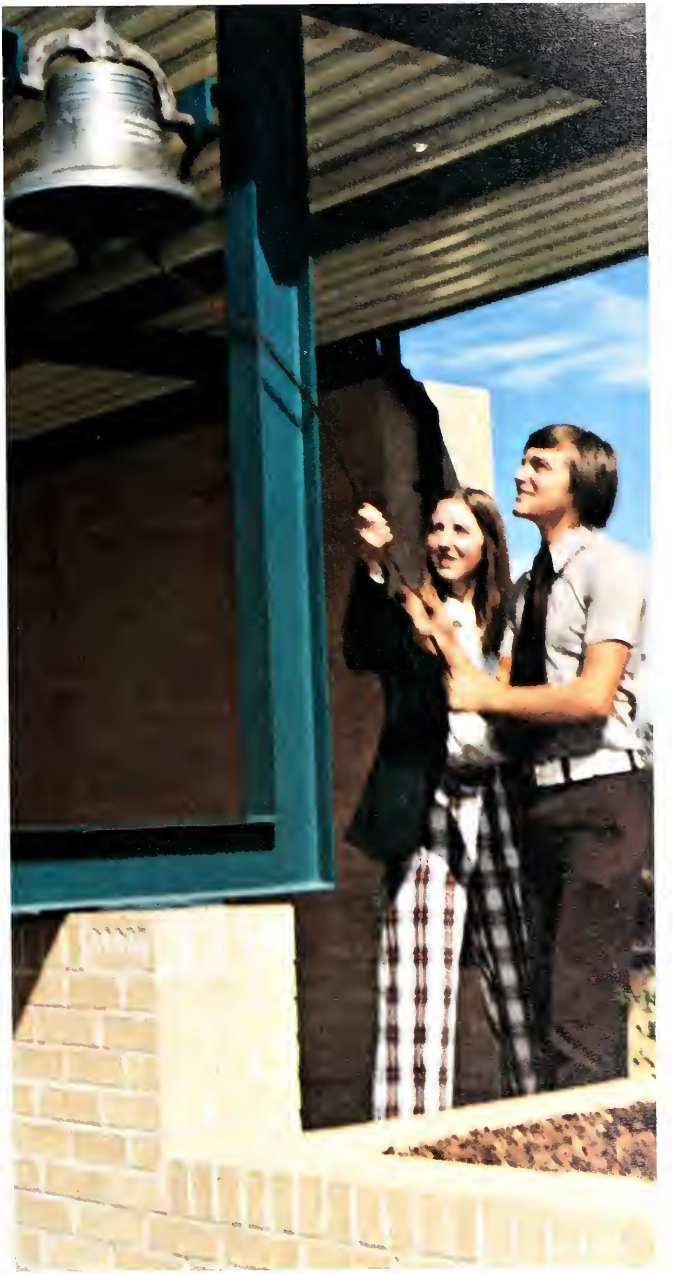
Our campus has gradually undergone a metamorphosis . . . not unlike that of a caterpillar changing to a beautiful butterfly. The addition of De Sales Hall, which houses a fine library, is the most spectacular of our many improvements.

With the renovation of Cavalier Hall, the soft grass covering the athletic playing field, and other such alterations, Mt. de Sales is taking on a fresh appearance. Where we could only walk before, now we can fly.

A group of Seniors converse with new face of Mt. de Sales as a backdrop.

DAY





Jo and Steve break in the "new" victory bell.

SPIRIT MAKERS

From the time they first throw away their rattles and grab hold of a bullhorn, they make a unique crew. What other type of girl would slap some red marks on her legs simply because it sounds good? Which of you could still smile while you are losing by thirty points and your waistband is pinching? It's a special type of girl who will yell in 10 degree weather "We're hot. . . . We've got the fever."

Cheerleaders . . . . What would we do without them?

"Call in the hogs, Ma, we're goin' to the fair!" Cavalier County Fair, that is. This year's Homecoming festivities were marked by all the trappings of a rural carnival. Even the bonfire took on a harvest time air as class skits reminded one of corn and hams.

DREAM BUILDERS

The yearbook staff climbs to new heights as their intelligence slides.

Greg McKelvey, Asst. Sports Editor, checks a layout.

With Sheri around, who needs a Watergate shredder?

Margaret, artist. The two are equal.

Salesian staff editors Laurie Hughes, Marjo Marker, Jim Jordan, Margaret Katz, Jane Conner, Jo Michel, Sheri Lendrum, and Maggie O'Shaughnessey pose for an unposed picture.

Maggie, the epitome of efficiency.

"One day I'm going to clean out this cabinet"

A yearbook is exactly that—a book which contains the collected events of a school year. The word is deceptively simple, whereas composing an annual of any quality is anything but simple . . . It entails long hours of developing and cropping pictures, writing captions, doing and redoing layout designs, and even a couple of minutes planning how to arrange them. The staff is ready, willing, and able to risk writer's cramp, insanity, and flashbulb blindness to present a masterpiece. So if you find a picture printed upside down or a caption that lapses into an unheard of foreign tongue, don't tell anybody and we won't either.

Advisor Miss Alexander strikes a pose.

OUR FEARLESS LEADERS

Student Council is often worthy of greater recognition than it receives. Aided by class officers and other willing students, the Student Council officers shoulder a sizeable burden. Each year the Group handles Homecoming, Get Acquainted Day, Student Directory sale, and other activities too numerous to name. This school is fortunate to have those who assume responsibility without asking for rewards.

Mrs. Brown, always willing to help.

S.C. officers: Jim Deep, Audrey Shields, and Maggie and Mary O'Shaughnessey.

LEADERS BY EXAMPLE

That's what it's all about—the State trophy.

Hey diddle duddle, Garvin called a huddle
Just two weeks after June
Commerce laughed to see such sport
Until we stomped all over the Moon!

In 1864, Sherman burned a path from Atlanta to Savannah on his march to the sea. In 1973, the Mt. de Sales Cavaliers took a slightly different route, burning the MDS brand on teams from Seminole to Commerce in a football season unparalled in the history of the school. Consider just a few of the milestones: A 14-0 record, 572 points, 6 shutouts, 8 players on the bi-city team, 3 players making all state, subregion champions, region champions, area champions, sectional champions, . . . State Champions.

Vince Lombardi probably summed it up best when he said: "I firmly believe that any man's finest hour his greatest fulfillment to all he holds dear—is that moment when he has worked his heart out in a good cause and lies exhausted on the field of battle—victorious." For Mt. de Sales football, this is indeed the finest hour.

Robert explodes through the line behind great blocking.

Wilcher stops ballcarrier short of yardage needed.

It seems to be a basketball tradition at Mt. de Sales to get started late in the season, and this year's team was no exception. A string of early losses plagued the Cavalier cagers, spreading dark clouds over trophy hopes. But the sun broke through around midseason, and so did the team, who really got rolling.

The sound of whishing nets and the smell of burning rubber pervaded the gymnasium as Coach McDaniel and the boys "got it together" in a late season scoring splurge. A new school record of 98 points in a single game was set in a win over Wilcox County. Overall, things evened up for the season with a respectable percentage of the games tallied in the "win" column.

The "B" Team, made up of a group of hard working and enthusiastic boys, has learned during the course of this year what it means to be a team. Their diligence has laid the groundwork for future Varsity teams at Mount de Sales.

Concentration.

Susan applies the brakes to avoid a defender.

Linda and Anita scrap for a loose ball.

Tough coaching, tough playing and a little tough luck combined to make the Lady Cavaliers games some of the most interesting to watch this past season. Security was not a common feeling for Coach Garvin and his girls because an astonishing number of games were decided by a margin on only a couple of points. Most games went right down to the wire, with the ball on the edge of the rim, the fans on the edges of their seats, and the referees on the edge of their patience. There was some crying and some rejoicing; these are the products of a close game. The most important thing here was not which emotion was more displayed. The important thing is that the Lady Cavaliers have proved once again that they can stay on the court with anybody. And maybe even stay a little longer.

Susan listens intently as Coach Garvin spats out instructions.

"Watch this, Coach!"

Look, Mom, no hands!

Patti sets her sights on the ball.

Joe "Cool" McDaniel, mild mannered reporter for the *Daily Grind*, strides down the hall. Then, checking for possible onlookers, he dives into a nearby locker room and becomes . . . Super Coach! Emerging into the crowded gym he is recognized immediately by his dazzling trademark uniform: the special design lightweight flying goggles, those nifty pants with the deep pockets, and, of course, the immaculately white super-coaching shoes.

A hush falls over the throng of students as Super Coach calls the role. They know that he has something exciting planned. Will it be ping-pong? War Ball? Ice hockey? Deep sea fishing? It matters not. Whatever it is, they are confident that Super Coach would not fail them.

Sharon shows her style.

Hard work really shows.

Andy demonstrates his technique on the rings.

What's Coach McDaniel up in the air about?

What is Jimmy doing?

Matt shows intense concentration as he works a routine.

Faculty

Dedication

"Dedication" is a word which should be used sparingly. It implies serious commitment to something; a commitment which most people never make. Dedication is a word which describes the faculty of Mount de Sales.

The faculty is a group of people who have accepted the responsibility of educating and motivating the leaders and workers of tomorrow—us. Judging from what a challenging group we are, it is no small undertaking. Our teachers are prepared to provide anything necessary to speed our academic progress—from a pat on the back to a rap on the head. Although as the year progresses, patience may wear thin and nerves may tighten, our teachers will continue to work with us on that problem we can't seem to solve.

Aside from regular classes, the teachers at M.D.S. are involved in most of our activities, and spend many hours after school helping with clubs, dances, and student presentations. In the midst of the homework, the tests, the projects, and even the punishment, we're all on the same side.

Along with an interested Board of Trustees led by Dr. John O'Shaughnessey, and an equally dedicated staff, the faculty guides us in our preparation for life.

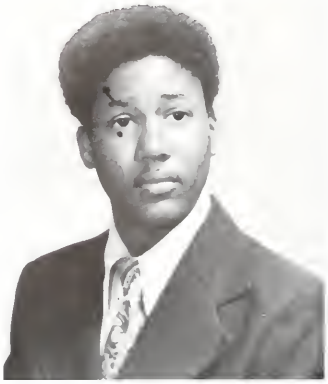
SENIORS

SENIORS . . . THE END OF AN ERA



Stephen Maurice Alston

"S" is for somber, "E" is for energetic, "N" is for nervous, "I" is for interesting, "O" is for optimistic, "R" is for remembering, "S" is for something which ties these varied qualities together to make Seniors what they are. In most cases, it is easy to spot a Senior in a crowd. He's the one with a pocket crammed full of college pamphlets, who may only pretend to be interested in the conversation. Seniors tend to feel a little superior, but come down to earth at the prospect of starting over at the bottom next year. The pressure of the future looms ahead and they can feel it. Were it not for the medicinal qualities of the "sacred privileges", the strain might become too great. But a quick trip to the shrine of the "Pig" or the Krystal can make them new people. Through it all, the Seniors draw on each other for encouragement and friendship. They become a close knit group bound together against a common foe: fear of the unknown. Another factor draws them together: four years of striving toward a goal only now coming into sight. They've had many laughs along the way and many happy moments but now it is time to move on. There are things which must be done.

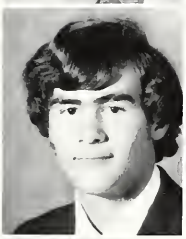
The Juniors . . . The Potential Leaders

Kevin Alston
Maria Andros



Don Benton
Margaret Billingslea

At last! The time has come for those who have struggled through the lowliness of being freshmen and sophomores to be rewarded. The junior year is the year in which the student works just as hard, but in which he can finally see a profitable end. Graduation and college seem a tangible thing instead of a hazy eventuality. The awarding of senior rings culminates the junior year and shows the way to the responsibilities of the upper classman. Among some of the attributes of the junior class are its enthusiasm and its potential for leadership. They are ready for a new tomorrow.

The Sophomores . . . In the Middle of the Road

The Sophomore year is a middle year. The typical sophomore student is two years away from graduation and the privileges of a Senior, but he is miles away from the novice eighth graders and freshmen. He has struggled with basic subjects and is now ready for complex math, biology, and American history. His role in student government has increased and the eventuality of off-campus privileges is becoming obvious to him. He helps his class in projects to earn money and he knows that the Jr.-Sr. is only one year away from him. Sophomore year is the year of decision . . . will the students maintain the carefree airs of their previous two years or will they begin to grow and assume the responsibilities that their age and rank place upon them? Look at their activities—perhaps the choice is already made.

The Freshman Class . . . . Enthusiastic Beginners

The freshman class is ready to take over Mt. de Sales. Armed with enthusiasm, spirit, and an eagerness to move our school forward, the freshmen are trying their best to make themselves the best class that this school has ever seen. Confronted with the election of class officers, the students united and produced a slate of officers who zealously strive to make the freshmen leaders in areas of spirit and student government. The freshmen, unstaggered by an academic load consisting of such horrenduous courses as English, algebra, foreign languages, and physical science still have time to attend football games and sock hops. The life of a freshman is full—full of both work and fun.

The Eighth Grade . . . . A Whole New Thing

A new and integral part of Mt. de Sales in 1974 is the eighth grade. This small group has made itself familiar with the traditions and customs that are such a great part of our school and is now ready to take its place as a responsible body. These youngest students have taken part in spirit-raising . . . . . They are one of the most enthusiastic groups at football games and pep rallies. They have come from a world of rulers, scissors, and crayons into another of algebraic equations, gerunds and clauses, and forward rolls. They must make themselves accustomed to the famous blue and white schedule card and remember that your locker opens when you dial it right-left-right (or should that be left-right-left?) At any rate, these students have done a fantastic job of getting the feel of Mt. de Sales. They have taken a big jump and they are still on their feet.

Does your house have bad breath?

Bad breath happens to houses, too. Pockets of stale, smelly air Bone-dry and drafty in winter. Hot and sticky by summer. And clammy musty, mildewy in between. With all sorts of indoor air pollution—air borne dust, pollen, cooking odors, tobacco smoke. Now that's BAD BREATH! A mighty unpleasant situation for your entire family.

Give your house a breath of Springtime-*all year long*-with Lennox Total Comfort

You'll enjoy this freshness the year 'round. The ducted Total Comfort System surrounds you with living air, warmed or cooled to the right comfort temperature. Continuously circulated. Breathe the sweet softness of air squeezed dry of summer stickiness . . . or gently moistened to ease winter's scratchy dryness. And electronically cleaned to remove 90% or more of air-borne dust, pollen, soot, dirt, even tobacco smoke and cooking odors.

Lennox Total Comfort comes in four easy-add-on packages: (1) heating, (2) central air conditioning, (3) power humidifying, (4) air cleaning. Start now, and say goodbye to a houseful of bad breath!

I won't ever know what possessed me to actually write in this book, I can't in all truth or even lie about it, because If I did it wouldn't be the same as if someone other than anybody else didn't make it right. However, It makes no difference as to whether it was me or I or even the other one besides that. Right?
—Doug

Mark—
How many more Hornets are there?—
